

On the Road to SAP® S/4HANA

KEEP LABELING IN THE FAST LANE

No matter where you are on your SAP journey—ECC, Business Suite on HANA, S/4HANA—you'll want to optimize supply chain labeling with a powerful, enterprise-class solution that truly grows with you.

Not ready for S/4HANA? You're not alone. In a recent survey of 280 SAP users on their preparedness for S/4HANA, we discovered some surprising results.

73%

were not aware that SAP will no longer support its Business Suite ERP in 2025

67%

aren't sure when they are planning to move to S/4HANA

57%

use SmartForms or SAPscript for labeling in SAP and...

69%

don't know their deployment strategy with S/4HANA

76%

were not aware that SAP won't support the creation of new forms using SmartForms or SAPscript in S/4HANA in the Cloud

34%

cited "effort needed" (e.g., man hours) as a primary concern with their migration to S/4HANA

39%

cited "disruption to business" as a primary concern with their migration to S/4HANA

65%

realize the importance of evaluating labeling as part of their migration to S/4HANA

Integrate Labeling in SAP®— with Ease, Flexibility and Confidence

The good news is that Software Spectrum integrates with Netweaver, so it works with your current SAP landscape today—even mixed-version environments—to improve your labeling performance and reduce costs.

When you are ready to move to S/4HANA, Spectrum will continue driving your Enterprise Labeling seamlessly. Leverage Spectrum's pre-built, certified integration (**RDI, XSF, XFP**) at the data architecture layer to support SAP labeling **on-premise, in the Cloud or in a hybrid environment**.
